Why Choose Edgewood College DBA

Edgewood College, founded in 1927, is an independent liberal arts university, located in Madison, Wisconsin in the United States. Edgewood College offers more than 60 majors and 40 minors and its MBA program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP). Edgewood College is accredited by the Higher Learning Commission (HLC)*, one of the seven accrediting commissions recognized by the Council of Higher Education Accreditation (CHEA) - the premier authority on higher education in the U.S.

Driving Accessibility through Affordable Education

Edgewood College believes that access to quality education should never be out of reach. With nearly a century of educational excellence, we've consistently evolved to meet the needs of our students. To further our mission, we're introducing a flexible "pay per month" model, allowing you to finance your future without the stress of upfront costs. With this tailored plan, you can now spread your tuition over your program's duration.

It's your education, your pace, your choice. Because at Edgewood College, success is about making it work for you.

Message from the Provost

The Doctorate of Business Administration program at Edgewood University builds on our great history of educating leaders for the business world. Our alumni tell us that their Edgewood University business degrees prepared them for the challenges of the business world through the professionally relevant experiences offered in our programs.

Edgewood University faculty members bring real world experience into the DBA courses, and their commitment to student success gives our students a distinctive advantage in their careers. Our DBA program offers a high quality, academically and professionally rigorous education that helps Edgewood University graduates build successful careers in business.

Dr. William Mangan

Provost and Vice President for Academic Affairs
Edgewood University

About upGrad

upGrad is an online education platform to help individuals develop their professional potential in the most engaging learning environment through a wide range of programs designed to improve their expertise. upGrad collaborates with top-class universities across the world including the Wharton School of the University of Pennsylvania, Caltech CTME, Purdue University, University of Arizona, Duke CE, Deakin University, Michigan State University, and Liverpool John Moores University, among others.

As the ability to partake in the academic rigors of business education becomes limited due to the demands of work and life, professionals often find themselves in the position of having to treat their continuing education as a burden that comes in the way of their professional performance. upGrad has delivered over 20 million hours of learning, delivering programs by collaborating with universities.

The upGrad Advantage:

Five leadership outcomes only we deliver

We provide a full range of post-doctoral services. Much like a concierge, we work tirelessly in the background so you can focus on your doctoral experience, while we open up a bouquet of stellar outcomes for you.

1. Published Author

Transform your doctoral dissertation into a book or in a journal, and position yourself as a published thought leader in your domain. Become a top voice even in the real world. Be quoted by trade media, and be invited to panels at conferences. Learn storytelling from published authors. Turn your “someday I’ll write a book about this” into today!

2. Industry Professor

Give back your entire career’s worth of wisdom, and inspire the leaders of tomorrow. Teach as an industry expert, in top UGC-recognized universities, by seamlessly pivoting to academia without stepping away from your professional role. Cement your legacy as an icon who not only led the industry but inspired the next generation.

3. Product Creator

Get a clear, practical path from tech leaders who've turned ideas into products. Productise your ideas and turn concepts into business growth. Spot opportunities to solve real challenges using emerging tech! Design winning strategies, prototype and pilot quickly with no-code tools to earn leadership buy-in. Track ROI, create impact!

4. Patented Innovator

Protect the innovations born out of your doctoral research, with our network of top tier law firms specialising in Intellectual Property. From thorough patentability analysis to defining a unique defensible space, to drafting claims using precise legal language to build an ironclad IP that transforms your brilliance into bankable value.

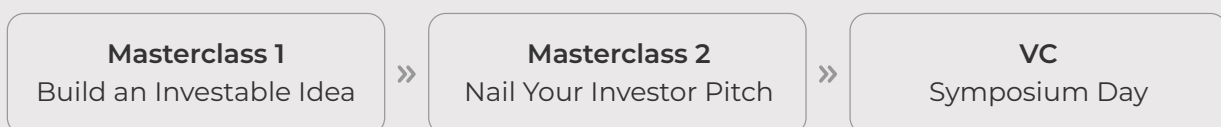

The upGrad advantage for Patent Grants

5. Funded Entrepreneur

Get direct mentorship from established VCs and Founders. Master the art of pitching your business via Silicon Valley storytelling and business models made to withstand the toughest of investor scrutiny. Then culminate your journey at our exclusive VC Symposium Day where you'll get to pitch to real investors with chequebooks in hand!

About the Partnership

To provide quality U.S. education to learners across the globe, Edgewood University has partnered with upGrad, a global higher education technology provider. Through this partnership, learners from around the world have the opportunity to learn from Edgewood University faculty. The programs taken by international students are delivered 100% online and hold the same accreditation and rigorous standards as the courses offered on Edgewood College campus and to domestic online learners. Within the partnership, upGrad serves as the point of contact for international student admissions, advising, enrollment, and payment. Most notably, Edgewood University has taken action to make its courses accessible to all students by implementing a scholarship program for international students.

What Makes Conducting Research in this Program **Unique?**

This program provides learners with the opportunity to work on Applied Doctoral Research (ADR). The ADR takes traditional dissertations a step further by ensuring that the students are building their research for business impact. Students can collaborate with industry experts, along with their dissertation supervisors. This enables them to develop solutions for real business challenges and build actionable execution plans, gaining leadership-ready skills valued by employers.

* This timeline is subject to the quality of the submissions and may get extended based on the advice of the learners' dissertation supervisors.
